PERSONAL NOTES

Mrs. Clarey, Wandoo-street, Valley, Brisbane, has received letters of condolences on the death of her husband, Private Robert Clarey, in England, as the result of an unfortunate accident. In a letter from Rolleston camp, Salisbury Plain, Private J. V. W. Hopper writes :- "I am going to try and write you a few lines about the sad accident that poor Bob met with. He was going through a course of bomb throwing, and the instructor was showing them how they light fuses. There was a box of high explosives on the table in front of him, and a spark flew into it and set the whole lot off, and poor Bob was the most unlucky of the lot in the room. It happened about 10 o'clock in the morning, and he died about 9 o'clock the same night. He was hit in the back of the head, and they tried to get out whatever was there, but the operation was unsuccessful. He never regained consciousness. I got a terrible shock, and have not got over it yet. At times I cannot believe it is true. We have been together since we left, and were in the same hut. He often used to say he would be back in the Valley again. He had a very decent funeral, the firing party of 12 men being taken out of his unit. I can tell you he had stiff luck, for he should have been on leave, but as he had only come out of the hospital the day before they told him he would have to go with the next lot." Private Hopper further states that the deceased soldier was in hospital two weeks with a very bad cold, the weather having been very cold when they arrived in England. He concludes : "Well, Mrs. Clarey, this soldiering is up to putty. I will be going to France on the 19th of this month, and will send you a post card before I go." In a joint letter 20 of the friends of the late Private Clarey write : "We, the undersigned, cobbles of your late husband, desire to express in a simple way our heartfelt sympathy for the great loss you have sustained in his death. Speaking as one of his tent mates (says the first signatory, Arthur Rayner), and I am sure that I am speaking for the rest of his mates, I can say he was one of the best friends that a soldier ever had, and I am sure that if there is one place more than another in which a fellow

needs a good mate, it is in the army, I am certain that Bob, as he was known throughout the unit, was absolutely one of the best. Little did we think as we bade him good-bye when we went on leave that it was the last farewell, for it was on the Monday morning (the day of our return) that he met his death. As I know most people like to know how their loved ones died I would like to say that as far as I know he suffered no pain. Immediately after the accident he lapsed into unconsciousness, from which he rallied for a little while, only to fall into his last long sleep about 9.30 on the night of April 23. With loving hands we laid him to rest two days later in the little cemetery at Durrington. His day's work was done-his life's race was finished. He died in the cause of the country he loved. Although no cannon's roar sounded his death knell, yet he died a true soldier's death, and of him it can be said a 'Greater love hath - no man than this, that he lay down his life for friends.

Commonwealth War Graves Commission Headstones

The Defence Department, in 1920/21, contacted the next of kin of the deceased World War 1 soldiers to see if they wanted to include a personal inscription on the permanent headstone at Durrington War Graves Cemetery. Space was reserved for 66 letters only (with the space between any two words to be counted as an additional letter) & the rate per letter was around 3 ½ d (subject to fluctuation).

The expense in connection for the erection of permanent headstones over the graves of fallen soldiers was borne by the Australian Government.

(Information obtained from letters sent to next of kin in 1921)

Pte R. Clarey served as R. Carey does have a personal inscription on his headstone.
