John Brooks, Corpl. A.S.C. Cyclists Camp Codford.

On Saturday, February 23rd I was coming from Warminster by the 9.54 p.m. train from Warminster to Codford. It was a corridor carriage and deceased was in it, but not in my compartment. I saw deceased passing by my

compartment towards the lavatory. Some few minutes after someone told me he was opening the carriage door. I looked out the window of my carriage and saw the deceased sitting on the floor with the door open. Before I could do anything he disappeared. I saw no one else in the corridor. It was about 300 yards from Codford Station, and on arrival there I informed the Military Police. Deceased appeared sober when he passed by my compartment. I went back with the police and found the deceased face downwards on the permanent way just outside the down line, his head against the rail, he was unconscious. Gunner Ford R.F.A. 191865 was in my compartment and made a remark about deceased. I cannot say whether there were other men in the same compartment as deceased. The carriage was particularly empty.

On February 24th I saw deceased in hospital. He was unconscious, he continued the same for a week. I saw him several times and thought he would not recover. He died on Monday the 4th inst from compound depressed fracture of the skull. The injury was such as he would be received by a fall from a train in motion.

Jabez Charlton, Stationmaster at Codford G.W.R.

On February 28th I was at the station master's house and heard a man was on the line. I went towards Heytesbury and found deceased about 300 yards up. He was taken to hospital. I think deceased when he jumped out struck some trucks and rebounded, there was however no mark on the trucks.
